PHILOSOPHY

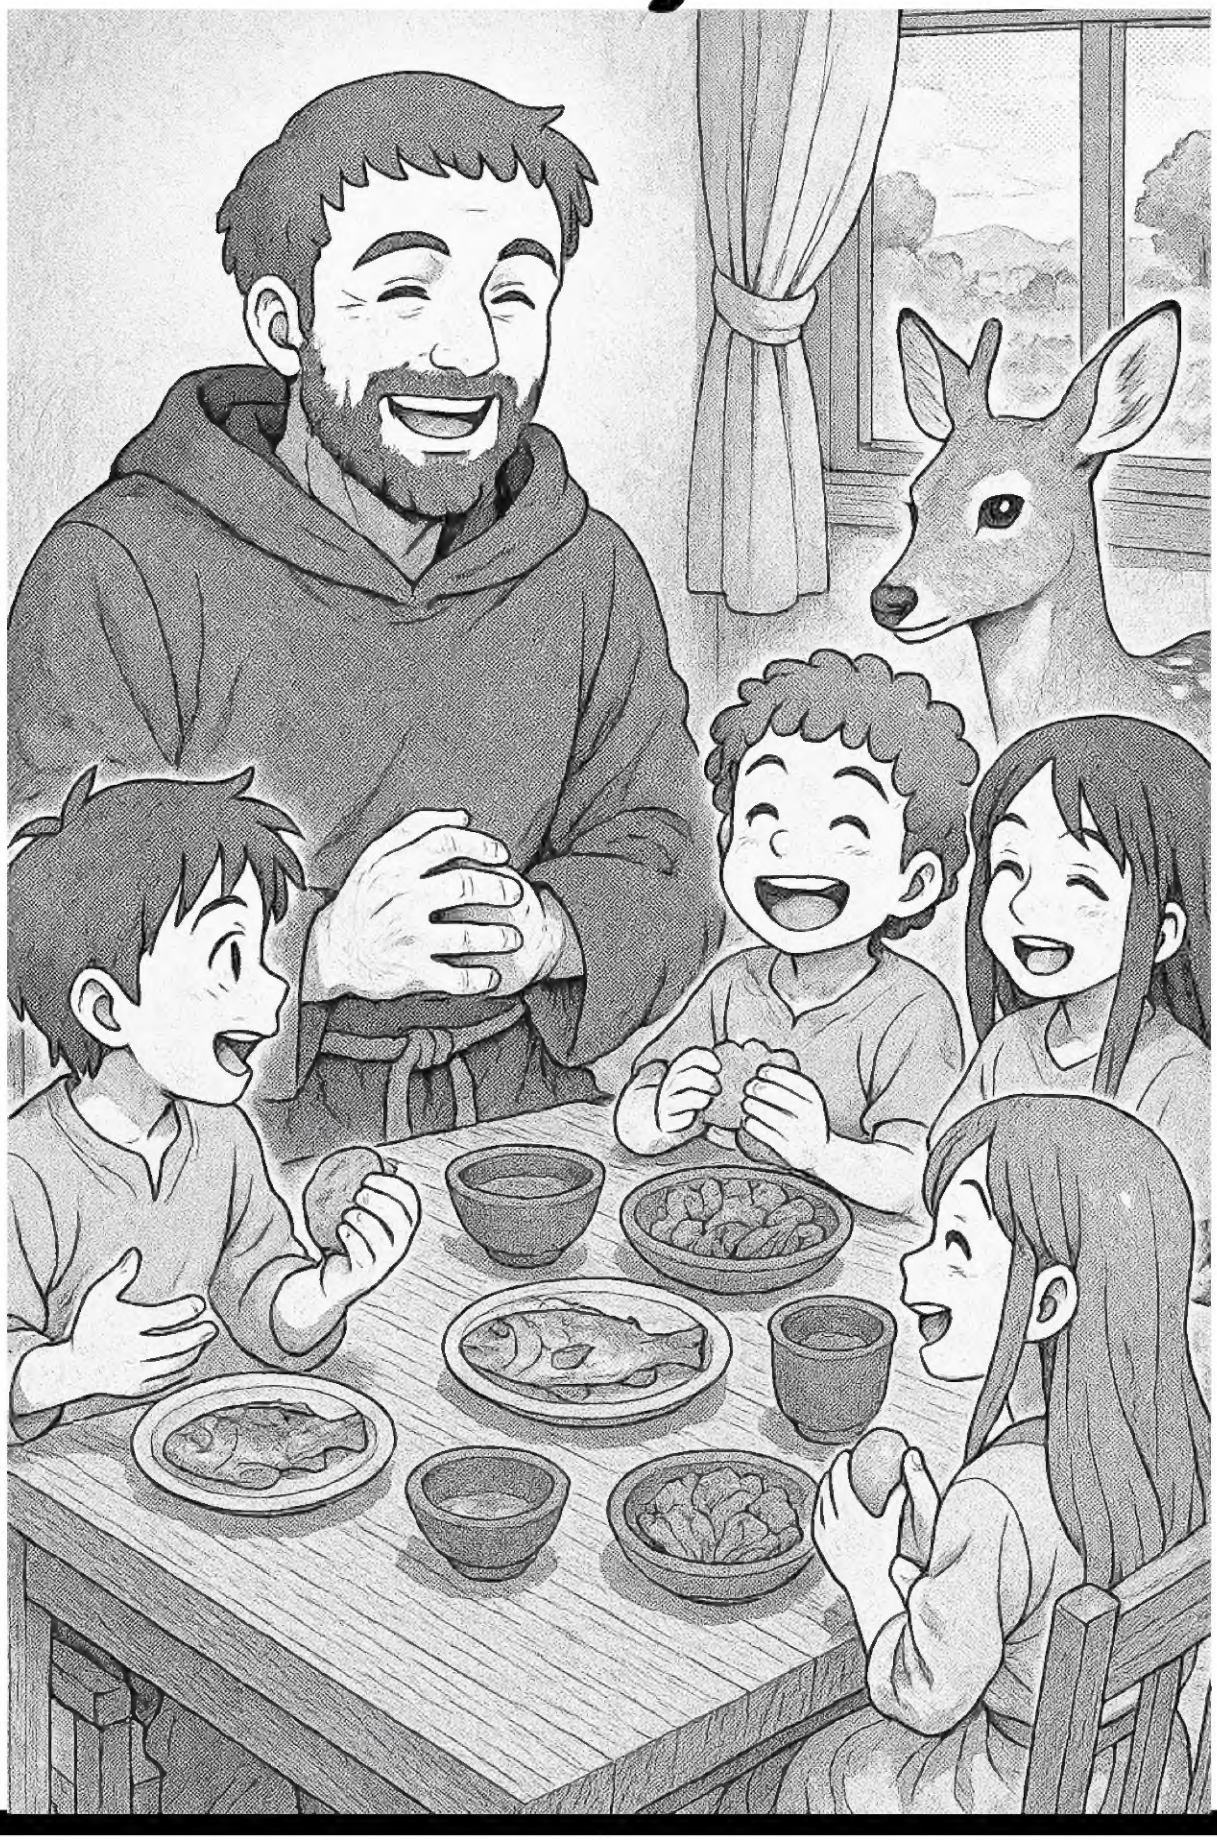
St. Francis of Assisi Montessori School of Cainta holds that sound values are the true bedrock of a happy, successful life—and the catalyst for a society's positive transformation. History's holy saints and enlightened leaders remind us that intelligence without virtue becomes perilous, and knowledge without wisdom can be destructive. Corruption in government, corporate greed, and the tragedy of war too often stem from brilliant minds guided by misplaced principles.

Saint Francis himself enjoyed intellect, status, and wealth, yet he ultimately discovered that life gains meaning only when it is anchored in a higher purpose and rooted in the right values. We strive to pass on that same insight to every learner who walks through our doors.

MISSION

Our mission is to cultivate intellectually vibrant students who embody the core Franciscan values: tireless diligence, keen self-awareness, and a profound love and respect for God and neighbor. We envision these enlightened young men and women becoming catalysts for positive change—first within their families, then in society, and ultimately throughout the world.

St. Francis of Assisi



MESSAGE TO THE GRADUATES

Aurora R. Villanueva

School Administrator

May our Heavenly Father guide you and bless you all in your next chapter in life.

Dear Graduates and Movers of Batch 2024-2025,

Congratulations on reaching this wonderful milestone! Completing the SFAMSC curriculum is no small feat. It's a journey filled with hard work and dedication, and you have proven that you are among the very best.

As you step forward into the next chapter of your lives, remember to keep God and Jesus Christ at the center of everything you do. Let His guidance light your way and help you succeed in all your endeavors.

Life will bring new challenges and obstacles, but you are never alone. When things get tough, don't hesitate to ask God for help and take a moment to pray. His strength and love will support you through any hardship.

We are so proud of all that you have accomplished and excited for what the future holds for you. May your faith continue to grow, and may you always find comfort in His presence.

Wishing you all the best on your journey ahead!

Yours in the Light and Love of St. Francis and Christ

Administrator

MESSAGE TO THE GRADUATES

Adryan R. Villanueva

School President

I wish you the best, and may God bless you with a life full of meaning and fulfillment.

Dear Graduates and Movers of Batch 2024-2025

As you each reach the next chapter of your life, Let's pause to reflect on the incredible journey you've shared with us at SFAMSC. From your first days exploring the wonders of learning to the friendships that have blossomed along the way, you've grown not just in knowledge but in heart.

The lessons you've learned at SFAMSC extend far beyond the classroom. The friendships with your classmates, the bonds with schoolmates, and the guidance from your teachers have all contributed to the person you are today. These experiences shapes your character and brings light to the path ahead.

Cherish these memories—they are precious reminders of where you've been and inspirations for where you're going. This yearbook captures those moments, preserving them in a way that you can revisit in the years to come, to reminisce and smile at the journey you've taken.

As you step forward into the next chapter of your lives—whether starting primary school, entering junior high, or embracing new challenges in the university and beyond—know that we are proud of you. We bid you farewell with hearts full of hope and excitement for all that lies ahead.

Congratulations! May your future be bright, your dreams big, and your journey filled with joy and discovery.

Yours in St. Francis and Christ,

Adryan R. Villanueva
President

MESSAGE TO THE GRADUATES

Mario R. Follero

School Principal

Keep striving and hold on to your dreams!

Dear completers and Graduates!

Congratulations on this momentous day for you! You have achieved another milestone, which is a testament to your hard work and dedication over the years.

You are now reaping what you have sown over the past years. The road to success is not that easy; completing assignments, performance tasks, and projects for all eight subjects has been challenging, but you have succeeded! You did it! You now hold a diploma, your key to the next stage of education—a symbol of your perseverance in achieving your goals.

I wish you all the best in the coming years as you take on another step in your studies. Keep striving and hold on to your dreams. Remember that no matter how difficult it may become, there will always be people that you can lean on and help you in your endeavors. Your parents and family are always ready to support you with anything you need.

Thank your beloved Alma Mater, St. Francis of Assisi Montessori School of Cainta. We are always proud of you! Remember to return to this institution one day and reflect on the memories you created with your classmates and schoolmates. Think about the times you ran through the corridors, sang the school hymn, attended programs in the activity center, and played with your friends, and take a moment to smile from the heart just like the song kanlungan says "Ngayon ikaw ay nagbalik, katulad ko rin ang iyong pananabik. Makita ang dating kanlungan".

Once again, congratulations completers and Graduates of Batch 2025!

Mario R. Follero

MESSAGE TO THE GRADUATES

Msgr. Tom Gonzales

Spiritual Director

This is the beginning of your enlightenment.
Mabuhay kayo! God be with you.

My dear graduates,

I wish to greet you all for this solemn occasion to celebrate the many blessings and graces God has poured upon us, most specially upon you graduating students.

"When Joseph and Mary had finished doing all that was required by The Law of the Lord, they returned to their hometown of Nazareth in Galilee. The child grew and became strong, he was full of wisdom, and God's blessings were upon him." (Luke 2, 39-40)

This is what St. Luke wrote: Jesus grew both in body and in wisdom, gaining favor with God and men. Just like all of you as you are now passing this stage in your life. This is what we call TOTAL HUMAN DEVELOPMENT.

You too grew up in your physical development from infancy, to your childhood, to adolescence and ready for adult life. Show therefore your deepest gratitude to your parents for their undying love and support as you are growing in age.

You too grew up in wisdom for your intellectual and cultural development from kindergarten school days, to your elementary school days, to your high school studies.

Give thanks to your teachers and administrators for their painstaking dedication and commitment to educate you.

But above all, as Jesus grew up also in the grace of God, give thanks to almighty God who has given you the spiritual development as Christians under the influence and inspiration of our patron, St. Francis of Assisi. Give thanks to God for all these blessings, for your moving up and graduation to the next stage of your maturity.

Mabuhay kayong Lahat.

Message to the Graduates

Jean M. Rivera
Senior Casa 2 Adviser

Hooray my dear Senior Casa 2 pupils,

Keep chasing your dreams! There's a superhero within you that will help you strive to be the best version of yourself.

Great job, my dear Senior Casa 2 pupils! I am so glad to have been your teacher. Thank you for all the amazing memories and lessons we shared this school year. I am incredibly proud of each one of you. I have witnessed your learning and growth firsthand. We worked hard and had so much fun along the way. You are all so smart, and I know you will excel in your next journey.

Thank you for growing together, filled with spice and smiles! I love you all very much. To all the parents, thank you for your support and cooperation. Your love has been a source of strength and inspiration for your children. We appreciate your unconditional love and your trust in us with your children's education.

This Moving Up ceremony is dedicated to all of you! To the entire SFAMSC community, thank you once again, and congratulations!

Teacher Jean

Message to the Graduates

Maricel C. Doroteo

Grade 6 - Humility Adviser

Dear Grade 6 - Humility,

As you stand at the threshold of completing your elementary journey, I want you to know just how proud I am of each and every one of you. This year has been filled with learning, laughter, challenges, and growth, and through it all, you have shown resilience, curiosity, and kindness.

Always remember: graduation is not an end, but a new beginning. Keep dreaming big, continue working hard, and never stop believing in yourself. You are capable of achieving amazing things.

As you move on to junior high school, carry with you the lessons, friendships, and values you have built here at our beloved St. Francis of Assisi Montessori School of Cainta—a place where you have been loved, nurtured, and shaped to become the best version of yourselves.

Thank you for all the joy and light you have brought into our classroom. I will always be cheering you on, wherever your journey takes you.

With pride and love,

Ms. Maricel

"Keep dreaming big, continue working hard, and never stop believing in yourself."

Congratulations!

Grade 6 – Humility

"Humility is the quality of being humble. If you meet one of your heroes and feel nervous and in awe for him or her, you are experiencing humility. Humility comes from the Latin word 'humilis' which literally means low....

Someone who spends his life taking care of others shows humility."

Maricel C. Doroteo
Adviser

Acapuyan, Mateusz Anthony M.

Embracing Growth and Building Lasting Bonds

Mateusz fondly recalls his grade school days, especially his Grade 1 field trips to Rizal Park, Mount Samat, and the Museum of Philippine History. Over the years, he has grown from childish and hard-headed to a more reserved, humble person. His passion for understanding history makes AP his favorite class, and Mateusz's proud of earning "With Honors" despite recent setbacks. He will miss the fun times he shared with friends—particularly his Grade 6 classmates—and fondly remembers a sleepover at Timothy's house.

He plans to spend quality time with his family, secure a job, and help support his parents. He advises incoming Grade 6 students to embrace life's journey, stay humble, stay curious, and remain true to themselves. Sports games remain his top pick among all school events, treasured for their spirit of sportsmanship and shared laughter.

Ato, Ethan Jorge B.

Ethan has grown into a more independent and responsible student since Grade 1. He takes pride in studying on his own and relying less on his parents for help. His proudest achievement is winning first place in the Araling Panlipunan CAMPRISA competition, a subject he found challenging due to all the memorization. He turned this challenge into strength. Ethan's grade school experience has been enriched by his friends—Zach Baste, Zachary Belmonte, Iushan Del Rosario, and Joaquin Roan. Their shared love for chess has created a special bond. Together, they've made his journey in grade school unforgettable.

For Ethan, grade school has been filled with ups and downs but remains the best time of his life because of his supportive friends, teachers, and classmates. He advises incoming Grade 6 students to study hard, enjoy their time with friends, and avoid unnecessary conflicts because these moments will be cherished forever.

Growing and Thriving

Baste, Zach Gabriel M.

A Heart For Doing What's Right

Throughout his grade school, this handsome and personable young man always believed that doing the right thing would bring fulfillment and happiness to others. His biggest academic hurdle was AP in third grade, which he overcame with Faith, perseverance, and belief in himself—no matter what it takes. His sacrifices were awarded when he received the highest honors multiple times —his proudest moment and something he vows never to forget. Although he isn't entirely sure how to stay close to friends who have moved on to different schools, he plans to remain in contact through messaging apps and hangouts.

In ten years, Zach sees himself as a happy college student, still enjoying his old hobbies, diligently working toward his dreams, guided by the belief that unwavering self-confidence is the key to overcoming life's challenges.

Belmonte, Zachary Carl E.

Zachary's Grade 6 journey has been marked by once-rocky friendships that flourished into meaningful connections, lively chess discussions, and a growing passion for learning. He enjoys sharing chess-related musings with Zach, Ethan, and Iushan and trading quirky thoughts with Joaquin from Grade 6 Generosity. Looking back, Zachary credits Quinn—his first friend after transferring—for guiding him through school life from Grades 2 to 4, teaching him about classmates and schedules, and adapting to a new environment. Among his academic pursuits, Science is his favorite subject, fueled by his fascination with biology and hands-on experiments.

Zachary's athletic spirit shone when he earned first place in track and field at SIGLAKAS 2023 . His advice to incoming Grade 6 students is to be kind, make the most of their final year in grade school, and embrace growth inside and outside the classroom. Zachary values every small effort that keeps friendships alive and meaningful well beyond graduation.

A year of Mended Bonds and Growing Curiosity

Clarido, Sean Aldrich N.

Driven by Inspiration and Ambition

Sean credits his grade school success to the encouragement and guidance of his friends and teachers, who have been his biggest inspirations. Among his proudest achievements are being part of a model class for a month and earning a gold medal in a math academic contest, reflecting his dedication and hard work. As Sean looks forward to an exciting future, he dreams of pursuing a unique career as a mortician or paranormal investigator, fueled by his fascination with the unusual and unexplored.

While he will deeply miss the sense of community and the many memories he built in school, Sean's advice to future Grade 6 students is simple but powerful: focus on your studies and let your dreams drive you toward a bright future.

Del Rosario, Iushan Joffrey F.

For Iushan, grade school was a whirlwind of unforgettable moments filled with challenges and joy. He will miss most of the friendships he has built with classmates who have supported him throughout the years. Among his favorite memories is a swimming party hosted by a classmate, where he enjoyed bonding with friends outside of school. His closest friends, Zach Baste and Ethan Jorge, made their trio unique with a bond so strong they often needed only a glance to understand each other.

A proud highlight of his grade school journey was securing 6th place in the Chess CAMPRISA competition—his first but deeply rewarding experience. Scouting traditions also hold a special place in his heart, as they taught him the value of being helpful and friendly while creating opportunities to make new friends.

Cherished Friendships and Memorable Experiences

Enriquez, Kal-el Christopher B.

Kal-El reflects on his grade school journey with gratitude, crediting Federico Ganotisi as a constant source of happiness and inspiration. Among the moments he will cherish most are the fun times spent with friends and the lessons learned from his supportive teachers, who have shaped his values and ambitions. With a vision for the future, Kal-El plans to become an engineer, driven by a desire to create innovative solutions such as air and water filters to help improve lives and the environment.

Summing up his grade school experience as challenging yet rewarding, Kal-El departs with a heart full of memories, a mind ready for learning, and a commitment to making a difference in the world.

Building Dreams for a Better Future

Ganotosi, Federico Gabriel H.

For Federico, one of the most unforgettable moments in grade school was when his friend group was complete—a squad of seven, now five strong. Through it all, his closest friends Xian, Bojo, Mateusz, and Timothy have been more than just classmates; they've been like brothers. Whether he was feeling down or going through tough times, they had his back, lifting him and bringing laughter when he needed it most. Federico's favorite event? The school sports games—where he could hit the court, play the sport he loves, and make memories with his friends.

One of his proudest achievements was making it to the official varsity basketball team—proof that hard work and passion pay off. But Federico's not stopping there—his dream is to become a pro basketball player and proudly represent the country on the court. With that kind of dedication and love for the game, the future is wide open. Guided by the support of friends and his Grade 6 adviser, Ms. Maricel, Federico's ready to take his shot—both in life and basketball.

From Courtside Dreams to Brotherhood Bonds

Lucas, Xian Sebastian M.

Perseverance, Teamwork, and Big Dreams

Xian believes that hard work, perseverance, and embracing failure can lead to success and personal growth. He has learned that failure is not the end but a stepping stone to improvement, a lesson he'll hold onto for life. As a proud SFAMSC elementary basketball varsity team member, Xian celebrates being part of the historic 2023 CAMPRISA championship win, the first for SFAMSC's elementary basketball team. His favorite memories are with his teammates, who trained, supported, and uplifted each other through victories and losses, always leaving the court with pride. These moments taught him the true meaning of teamwork, dedication, and camaraderie, values he will carry into the future.

Xian aspires to pursue a career in medicine to save lives and improve the well-being of others. He believes success is built on determination, kindness, and bravery and hopes to inspire others to embrace these values. He shares wise advice to future Grade 6 students: study hard, persevere, be brave, and cherish every moment with the SFAMSC family.

Reccion, Timothy Vaughn A.

For Timothy, the best moments of grade school were all about friendships and fun. Whether playing online, hanging out at school, or having friends to celebrate his birthday, Evo always found joy in the little moments. One highlight? The unforgettable Christmas Party, where everyone shared laughs, food, and memories, made SFAMSC feel like family. It wasn't just about the celebration—it was about looking back at all the great times and saying thank you to those moving on—pure good vibes and lasting friendships. Academics had challenges, especially AP (all that memorizing!), but Evo tackled it with determination, studying hard until he conquered it and earned high grades.

His solid crew—Mateusz, Federico, Bojo, and Xian—kept him laughing and smiling through it all. Even after a few friendly fights, they always stuck together, from birthday hangouts to ringing in the New Year with a Messenger call on December 31. Evo is aiming to become an engineer designing and building houses, especially one for his parents. His advice to younger students? "Getting a bad grade isn't the end of the world." Stay positive, learn from mistakes, and always keep moving forward.

Building Memories and Big Dreams

Valenzuela, Boss Joel C.

A Journey of Friendship and Passion

Boss Joel C. Valenzuela reflects on his grade school journey with fond memories and heartfelt gratitude. His most cherished moment was when his close-knit group of friends was still complete, a bond he treasures deeply despite changes. Among his proudest achievements are becoming a member of the official varsity basketball team and winning a drawing championship in Grade 4, showcasing his talent both on and off the court. His closest friends—Xian, Federico, Mateusz, and Timothy—are like brothers to him, always there to lift him during his toughest moments and celebrate his successes.

Inspired by the support of his loved ones and the encouragement of his coach, Bojo dreams of becoming a professional basketball player, following in the footsteps of his ninongs and titos, and even excelling as a pro MLBB player. His favorite school event, the sports games, sparked his passion for basketball. Bojo's journey is one of resilience, teamwork, and a determination to chase his dreams.

De Guzman, Faith Serene N.

Faith reflects on her grade school years as a journey of growth and discovery. She recalls how her maturity has evolved since Grade 1. Her love for math and arts stands out, as she finds math relaxing and enjoys arts for its ability to nurture her creativity. Among her fondest memories is the hilarious "Frutos candy" incident in Grade 4, where a strawberry-flavored candy was stuck in the classroom ceiling fan. Her closest friends—Carissa, Zerah, Hannah, Sean, and Zachary Belmonte—have been part of a rollercoaster friendship filled with drama and laughter, creating moments they'll one day fondly. Faith's plans after graduation include continuing to learn and grow, improving her IQ and EQ as she embraces new challenges.

She advises incoming Grade 6 students to spend time wisely with teachers and classmates, cherishing every moment before the inevitable changes of moving on. Looking back, Faith believes that even the ups and downs of friendship teach valuable lessons about understanding and forgiveness. She is grateful for the unique experiences that shaped her creativity, character, and friendships throughout grade school.

Growing Through Memories and Creativity

De Guzman, Hannah Cassadee P.

Inspired by Memories and Curiosity

Hannah looks back on her grade school years with fondness and gratitude for the many experiences that shaped her. Her most memorable moment was this year's scouting event, she enjoyed the unique camaraderie of cabin life even without her closest friends in the same patrol. Among her favorite classes was Physical Education, which taught her the importance of staying fit and healthy while having fun. A curious and inquisitive learner, she wishes she had joined the Science club in Grade 5 to explore more about the world around her, although she cherished being part of the AP club in her final year. Inspired by the hardworking teachers at her school, Hannah dreams of becoming a teacher to guide and nurture future students.

She treasures the connections she's made with her friends and plans to stay in touch through social media and occasional visits after graduation. For Hannah, events like the field trip stand out, where she explored fascinating historical sites that deepened her curiosity and appreciation for learning. She takes the lessons and memories that will inspire her journey ahead.

De Leon, Zerah Decerie R.

Zerah's grade school journey has been deeply influenced by her older sister and her friends, who reignited her passion for drawing after the pandemic. Her favorite class, Values/GMRC, helped her build a stronger understanding of her religion and morals, which she found both meaningful and enjoyable, even though the seat work became challenging. Zerah's closest friends—Faith, Carissa, Sean, Zachary, and Hannah—share a special bond, overcoming past conflicts to create a friendship rooted in forgiveness and resilience. Looking ahead, Zerah dreams of becoming a guidance counselor, driven by a desire to support young people who struggle with challenges often misunderstood by adults. She aspires to be a compassionate listener and a source of reassurance for the next generation.

She aspires to be a compassionate listener and a source of reassurance for the next generation. She plans to stay connected with her friends after graduation and reunite during school events like Foundation Day. Her advice to incoming Grade 6 students is to find balance: work hard, but also take time to enjoy life, following her mom's wise words, "Enjoy responsibly." Zerah leaves grade school as a passionate, empathetic individual ready to make a difference.

Rekindling Passions and Inspiring Futures

Estopace, Sophia Dasha C.

Bright Memories and Big Dreams

Sophia Dasha describes her grade school years as a time filled with friendships, teamwork, and excitement for school events. Her most challenging subject, Araling Panlipunan, taught her the value of persistence as she tackled it by reading diligently, ultimately earning the highest scores in her exams. What she will miss most are the inspiring teachers who encouraged her to always strive for excellence and the friends and classmates who made her school life colorful and unforgettable. Dasha dreams of becoming a TV reporter or news anchor, driven by her passion for storytelling and her desire to deliver accurate, fair, and balanced information to the public. Summing up her grade school journey as an "awesome, extraordinary, and brightest core memory," Dasha carries lessons and laughter that will last a lifetime.

She fondly remembers the moments when her entire class shared excitement during school programs and activities, feeling united as a community. Dasha believes that grade school is about creating memories that will always make her smile. To incoming Grade 6 students, she offers empowering advice:

- "Always do your best!"
- "Don't be afraid to ask questions to your teachers."
- "I encourage you to keep on going, even when it gets tough."
- "Pagsubok lang yan, kaya mo yan!"

Herrera, Rhianne Margaux C.

Margaux's grade school years were filled with growth, challenges, and strong friendships. Her friends were her biggest influences, always supporting her through tough times and showing her that failure is a step toward finding strength. She is most proud of becoming a better and more independent person, thanks to the guidance of her teachers and the people around her. Her closest friends—Dasha, Amaru, and Yzraela—made her journey special with their constant support, shared laughter, and unforgettable moments. She cherishes her classmates, some of whom she's been with since kindergarten, and their bond as a grade school family. Grade school taught her to face challenges confidently and prepared her for what's next, even as she continues to discover her dreams.

She hopes the friendships she has built will last, even after graduation. Margaux treasures all the fun memories, from group projects to school events that made her grade school experience unforgettable. She believes grade school taught her life lessons and shaped her into a stronger person. Her advice to incoming Grade 6 students is: "Never give up, stay positive, and enjoy grade school—it's a once-in-a-lifetime experience!"

Strength in Friendship and Independence

Mercado, Kenita Ailie F.

Faith, Fun, and Teamwork

Kenita reflects on her grade school years as a journey filled with challenges, growth, and memorable moments. The hardest subject for her was Araling Panlipunan, with its many dates, names, and events. Still, she overcame it by breaking lessons into smaller parts, drawing events to visualize them, and praying to God for guidance and focus. Her parents were her biggest influence, constantly encouraging her to do her best and reminding her to trust God during tough times. One of her funniest grade school memories was accidentally burping loudly during a quiet moment in an online class, a moment she looks back on with laughter and embarrassment. Beyond academics, Kenita is one of SFAMSC's best singers, with remarkable experience performing at school events and appearing in videos showcased on SFAMSC's social media platforms.

Her talent extends beyond school. She has performed on TV shows like Eat Bulaga, showcasing her voice to a larger audience. Grade school also taught her valuable life skills like discipline, time management, and teamwork. Her favorite event was Scouting, where she learned to set up tents, tie knots, and work as part of a team in her patrol, 'Kalinisan.' Scouting taught her independence and responsibility. Her advice to incoming Grade 6 students is simple: "Enjoy and cherish every moment with your teachers and classmates—time flies by so quickly!"

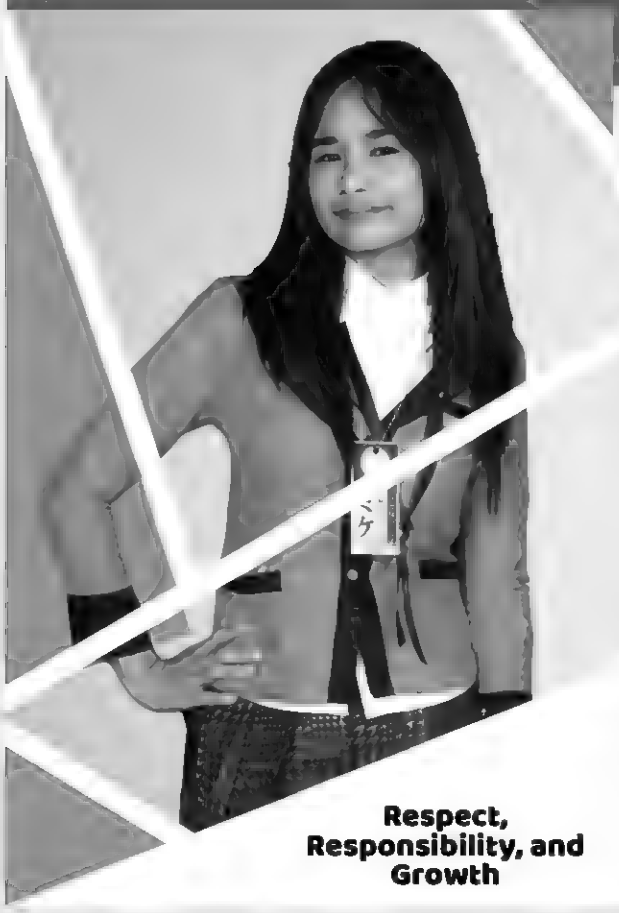
Rodriguez, Yzraela Maryelle B.

Yzraela looks back on her grade school years as a time of growth and change. From a shy Grade 1 student afraid to talk to others, she grew into someone confident and social, making connections with almost everyone in SFAMSC. Subjects like AP and Science were tough for her, but her teachers helped her overcome these challenges. Her closest friends—Amaru, Margaux, Dasha, Denisse, Patricia, Ethan, and Zach Baste—made her realize the value of true friendship, always bringing happiness and genuine smiles to her life. She will miss the fun moments with classmates, schoolmates, and teachers—like group meetings filled with laughter, school events, and training with her teammates and coach.

Her favorite memories include Foundation Day, Scouting, and representing SFAMSC as part of the Cheetahs in CAMPRISA Volleyball. Grade school also taught her the importance of perseverance and believing in herself. Yzraela cherishes every moment of fun, challenges, and achievements that shaped her as a person. Her advice to future Grade 6 students is to work hard, stay positive, and never give up on their dreams. She encourages them to enjoy every moment, grab every opportunity, and believe their efforts will lead to success.

Growth, Friendship, and Big Dreams

Santos, Quinn Amaru B.



Respect, Responsibility, and Growth

Amaru reflects on her grade school journey with gratitude for the valuable lessons she has learned. Among the most important are respect, responsibility, and confidence—qualities her teachers and the SFAMSC family instilled in her. Math has been her most challenging subject, but she takes pride in her improvement and perseverance. She is especially proud of consistently earning honors throughout her grade school years, a testament to her hard work and dedication. Joining the AP Club in Grade 6 has been a highlight, as she enjoys the engaging activities she once admired from afar. Her favorite event so far is the Scouting Activity, and she looks forward with excitement to upcoming events like the field trip and SigLakas.

Grade school has taught her to value both academic focus and meaningful experiences. Her advice to incoming Grade 6 students is clear: prioritize your studies, get enough rest, eat healthily, and enjoy your final year in grade school while preparing for high school, knowing your teachers will always support you.

Trinidad, Alexi Reign G.

Alexi's grade school years were a time of growth, learning, and unforgettable experiences. Over the years, her skills and abilities improved, her confidence and self-esteem grew, and she built meaningful friendships. Among her favorite memories is Scouting, where she gained invaluable life skills and created lasting memories with her patrol. Grade school has prepared her to face life's challenges with creativity, problem-solving skills, and the courage to try new things. Foundation Day is her favorite event, filled with fun booths, exciting games like volleyball, and endless laughter.

While she will deeply miss her teachers, her classmates and friends from other sections have been her biggest source of joy and support. Her advice to incoming Grade 6 students is clear: savor every moment, be prepared for new responsibilities, and always complete your homework on time. Most importantly, enjoy your time and make memories with your friends that you'll cherish forever.

Confidence, Growth, and Lifelong Memories

Ugalino, Carissa Loreal Marianne P.

Quiet Moments and Lifelong Friendships

Carissa reflects on her grade school journey with fond memories and personal growth. Her most memorable moment was last year's field trip, especially the peaceful and quiet nighttime everyone enjoyed. Over the years, she has matured physically and mentally, even if she feels she isn't as academically bright as before. Math class is her favorite because it challenges her and aligns with her advanced studies through Kumon, making even the confusing parts enjoyable. Her closest friends—Zachary Belmonte, Faith De Guzman, Zerah De Leon, Hannah De Guzman, and Sean Clarido—share a special bond through their similar interests in drawing, shows, and music.

For Carissa, true friendship isn't about how long you've known someone but how comfortable and connected you feel with them. She cherishes her grade school years and the memories she has made. To incoming Grade 6 students, her advice is: "Be prepared! It might feel easy at first, but it will get harder. Study well and make the most of your last year as an elementary student!"

Valle, Franchezka Angeline S.

If confidence in English class were a sport, Angel Valle would've been the champion—until a surprise quiz humbled her real quick. Still, English was her favorite because it made her feel like a pro (well, mostly). Though she never joined the Arts Club (fear of super-talented artists, y'know?), she's excited to go to junior high school to show the world her skills. Once she learns how to draw hands, it's over for everyone—future art legend incoming! Her dream? To level up her drawing game and match her friends in skill, especially when drawing humans. Just wait. She'll be impossible to beat.

Angel's inner circle—Hannah, Sean, and Faith—is the ultimate fandom squad, bonded by niche obsessions, inside jokes, and a shared hatred for that one character (they know who they are). If their friendship had a title, it'd be "The Four People in Fandoms No One Else Knows." Her golden advice: Do your assignments ASAP—because you will forget about that one project that's half your grade. Trust her. She's been there.

Confident, Creative and Slightly Chaotic

Grade School Department

Message to the Graduates

Jennifer DC. Dorias

Grade 6 - Generosity Adviser

To Grade 6 - Generosity,

The day we've all been waiting for has finally arrived! It feels like just yesterday we began this journey together, and now, here you are, ready to take on the next chapter of your lives.

Today, I'm filled with a mix of emotions—happiness for the memories we've created, gratitude for the experiences we've shared, and a touch of sadness that our journey together is coming to an end.

My dear Grade 6-Generosity, I want to remind you of all the wonderful things you've accomplished. It has been a true privilege to watch you grow from curious, brilliant, and confident young learners into the amazing individuals you are today. You've worked hard, faced challenges with courage, and grown in so many ways. I am incredibly proud of each one of you—not just for your academic achievements, but for the kindness, care, and spirit you have shown every day. I hope the memories we've made and the friendships you've built will stay with you for a lifetime. It has been an honor to be part of your remarkable journey.

To the parents, I extend my heartfelt thanks for entrusting us with your children. Your trust, support, and collaboration have meant so much to us. Thank you for being here and for walking alongside us every step of the way.

As you move forward, I hope everything you have learned, all the friendships you have formed, and every cherished memory will remain with you. May you continue to grow, to flourish, and to make a positive difference in this world.

Stay compassionate. Stay true to yourselves. And most importantly —keep shining, my wonderful 6-Generosity! I wish you all the success, happiness, and fulfillment the world can offer.

Congratulations, Class of 2024–2025!

With love and pride,

Ms. Jen

"Never stop learning, growing, and pursuing your dreams. Believe you can, and you're already halfway there."

CONGRATULATIONS!

Grade 6 – Generosity

"Generosity is a quality that's a lot like unselfishness. Someone showing generosity is happy to give time, money, food, or kindness to people in need...

But generosity is about more than cash and stuff. When you're forgiving and gentle to people, you show generosity of spirit."

Jennifer DC. Dorias, LPT
Adviser

Albonia, Vince Milford D.

Vince has countless unforgettable memories from his grade school years, especially those filled with laughter alongside his classmates, which always brightened their days. His favorite class was Science, where his passion for human anatomy fueled his curiosity. Vince cherishes his friendships with Azriel and Darren, bonded by their shared sense of humor and the joy they find in even the smallest moments together.

He dreams of playing for his favorite NBA team in ten years. His advice for younger students: hard work outweighs talent when talent doesn't work hard.

Future NBA Star with a Passion for Science

Barot, Muhammad S.

Muhammad's grade school years were filled with fun memories, like trading gems with Amaru in Grade 1 and playing with friends during the Siglakas 2023 intermission. He overcame challenges in language and reading by learning to take notes, which made studying easier for him. A sports lover with dreams of joining the Olympics, he enjoys cricket, football, and basketball but keeps his options open for the future.

Among all SFAMSC events, scouting was his favorite where he learned to set up tents, tie knots, and work as part of a team in his patrol. Muhammad's story concerns joy, friendship, and a strong desire to improve.

Gems, Games and Goals

Cacdac, Azriel M.

Fun and Chaotic Journey

Azriel describes his grade school years as funny and chaotic, with his best friends Suhaib, Vince, and Darren always by his side. Even though he wanted to join badminton, he ended up in basketball instead and made the most of it. His closest friendships are unique because they share the same humor and attitudes.

In the future, Azriel dreams of becoming a race driver or a DJ and rapper. His grade school memories are full of fun, laughter, and unforgettable moments.

Chivukula, Angiras D.

Angiras fondly remembers his elementary years, especially the excitement of SIGLAKAS 2023, where he performed as part of Team Hashira. The event's theme that year was Anime, and their group proudly represented the popular series *Demon Slayer*. He also won second place in a track and field event. Another proud memory is beating his smart classmates in a question-and-answer contest, including his friend and rival Zach. Outside competitions, he treasures his strong friendships with Darren, Azriel, and Vince, bonded by shared humor and understanding.

He hopes to become a teacher at St. Francis of Assisi Montessori School of Cainta, explore streaming, and become a popular influencer someday. To younger students, his advice is to stay in touch with those who matter, trust in God's plan, and focus on the positive moments in life. It's perfectly normal to feel insecure or worry about fitting in. However, don't pretend to be someone you're not.

Embracing Memories and Looking Ahead

De Guzman, Johanne Aldean P.

Growing Up and Aiming High

Johanne has come a long way since Grade 1, showing greater maturity, sharpening his intellect, and consistently choosing to do the right thing. His favorite class is Reading and Language because he finds it easy, speaks English confidently, and loves writing essays—he even joined the English club. One of his most memorable moments was during Scouting 2024,

when he had a fun overnight experience with his friend Vince. In the future, Johanne aspires to be successful, kind, and financially stable. His advice for younger students is to study hard, be brave, and never give up.

Donor, Darren Joshua S.

Darren looks back on his grade school years with great pride, particularly for achieving Top 3 High Honors—an accomplishment he will always treasure. He found joy in sports by participating in SIGLAKAS, and his favorite school event, Foundation Day, never failed to bring excitement. Close friends like Joaquin, Vince, and Angiras played a significant role in his journey:

Joaquin helped him prepare academically, while Vince and Angiras made school life more enjoyable. In the future, Darren aspires to be athletic and hopes to attain legendary status similar to famous footballers and basketball players.

Striving for Excellence and Legendary Goals

Emperado, Adrien Pio S.

Driven by Curiosity and laughter

Adrien's favorite class has always been Science, captivated by its fascinating lessons and endless possibilities. His fondest memories involve moments spent laughing alongside friends, reflecting the positive bonds he has formed throughout grade school. Over the years, he has grown more hardworking than his younger self.

Siglakas remains his top choice among all school events thanks to its energetic, sporty vibe. After graduation, Adrien plans to continue his pursuit of knowledge, eager to embrace new opportunities and challenges.

Roan, Joaquin Ayanni Maximus U.

Joaquin has grown in more ways than one since his early days at SFAMSC. From being a chatty first grader to becoming a more composed and focused student, he embodies the transformation that marks the journey of growth. Joaquin's passion for mathematics showcases his love for challenges and problem-solving, traits that will undoubtedly serve him well in his academic pursuits. Though quieter now, Joaquin cherishes his friendships and plans to keep the bonds strong through their ever-reliable group chat.

With dreams of excelling in a science high school and eventually college, he is ready to take on the future with the same determination he applies to his studies. Joaquin leaves behind wise advice for younger students: study hard, keep the classroom lively yet respectful, and make the most of their elementary school days. He reminds us all to balance discipline with joy, a mantra he carries into his bright future.

Maximized Potential

Cabato, Emace Gabrielle

A Heart for Science and Helping Others

Emace's most cherished grade school memory revolves around spending time with the extraordinary friends she met along the way. Her favorite subject is Science, which captivates her curiosity and fuels her ambition to become a doctor—driven not by money but by the desire to see patients go home healthy and happy. She treasures her close friendships with Brianna (and previously Lindsay, who transferred schools), maintaining a promise to stay connected no matter the distance.

As she looks ahead to fulfilling her dream of being the first doctor in her family, Emace offers younger students a guiding piece of advice: always choose the bright and happy path, which not only limits life's challenges but also encourages them to keep studying and striving toward success.

De Leon, Julianna Rose B.

Julianna counts all her classmates as close friends, but her bond with Kyle Denisse R. Servida stands out because they always support each other—through laughter or tears—and help each other in countless ways. She treasures the silly moments spent teasing each other about crushes and embarrassing slip-ups. As she moves on to higher-level lessons, Julianna knows the work will become more challenging,

She will miss the simplicity of grade school, along with her caring teachers and fellow students. Still, she hopes to keep in touch—perhaps over coffee—and carry the memories they created together wherever they go.

Cherished Moments and Lifelong Bonds

Esguerra, Patricia C.

Cherishing Happy Memories

Throughout her grade school years, Patricia discovered the importance of creating joyful experiences with friends and teachers—memories she vows to carry with her always. Her favorite class was Filipino with Ms. Jane, who patiently ensured everyone fully understood each lesson. Among her fondest moments are the silly antics she shared with friends, capturing the lighthearted spirit of school life.

Looking forward, Patricia hopes to find the same sense of fun in her next chapter in life. To those coming after her, she gives one key piece of advice: always show respect to your teachers and peers and avoid causing any trouble.

Foronda, Sophia Abby D.

Sophia Abby's favorite subject is English, drawn by its clear lessons and her desire to learn more. At first, she found AP difficult from Grades 4 to 6 but discovered that focusing and listening more closely helped her grow to love it. Among extracurriculars, Siglakas holds a special place in her heart for the fun it brings—and the chance to play her lyre in the parade. She feels proudest of overcoming her fears through perseverance and dedication.

Although she initially hesitated to join the AP Club, she now wishes she had taken that leap, but still treasures the experiences she gained from being part of the Science Club.

Embracing Challenges and Growth

Garcia, Maria Cattaleya E.

Reaching for Dreams Through Dedication

Maria Cattaleya plans to study diligently as she prepares for high school. She is determined to follow her dreams and secure a bright future—envisioning herself in a fulfilling career within ten years. Her favorite class is Language because she finds the lessons easy to absorb and enjoys taking notes. Among her achievements, earning "with honors" is a source of continuous pride and gratitude.

Regarding school events, Siglakas is her top choice for its fun and memorable atmosphere. Through hard work and passion, Maria is poised to realize her aspirations.

Mariano, Aria Christine S.

Aria's most cherished grade school memory is her first educational field trip in 2023, where she had a great time exploring and learning outside the classroom. Her favorite class has always been Arts, allowing her to express her creativity through drawing. She shares a special bond with her closest friends, Suhaib and Angel, who consistently support each other and enjoy spending time together.

Looking ahead, Aria aspires to become an artist who inspires others by showcasing her art and creativity. Her parting advice to younger students is to stay focused in class, remain responsible, enjoy their childhood, and always give their best effort.

Embracing Creativity and Friendship

Masakayan, Laviña Caile G.

Guided by Family and Driven by Dreams

Laviña credits her parents as her biggest influences, grateful for their tireless support, lessons on right and wrong, and constant encouragement throughout her education. She found joy in the volleyball club, where she could improve her agility and fitness while enjoying small but meaningful progress in every practice. Though Math and Araling Panlipunan presented challenges due to complex problems and intricate lessons, Laviña pushed through by staying focused and seeking help when needed.

Her tight-knit circle of friends—Cassie, Julianna, Sophia, and Joan—adds fun and support to her school life, reminding her of the value of trust. Looking ahead, she dreams of becoming a professional volleyball player, hopeful that she will one day make her family proud by appearing on TV.

Ruño, Brianna Beatriz C.

Brianna's most unforgettable grade school moments were shaped by new friendships, exciting school activities, and the valuable lessons she learned from her teachers. One of her favorite memories centers on Grade 4 Compassion (SY 2022–2023), where she was thrilled to be back at SFAMSC, reunited with old teachers and friends. Strolling around school with her pals remains a cherished highlight of her social life.

Looking toward the future, Brianna hopes for a happy, healthy life with her family and dreams of traveling the world. Among all the school events, her first Scouting Camporee experience holds a special place in her heart, made even more meaningful by sharing it with her friends.

New Friendships and Bright Adventures

Santos, Francezca Eve G.

The Power of Curiosity and Kindness

During her grade school years, Francezca learned that even the most minor acts of kindness could have a significant impact, whether helping a classmate or standing up for someone being bullied. Her passion for Science fueled her curiosity about the world, encouraging her to ask questions and think critically. She will miss the close-knit community that supported each other during group projects and school events, forming the bonds of one big family.

By honing teamwork, problem-solving, and time-management skills—mainly while serving as a senator for the 2024–2025 school year—Francezca feels prepared for the challenges of middle school. To younger students, she advises staying curious, making friends, and remembering that mistakes are valuable stepping stones on the path to success.

Servida, Kyle Denisse R.

Kyle recalls studying with classmates for tests and quizzes as her most memorable grade school experience, cherishing the shared commitment to learning. Grade 5 Honesty is her favorite class, where friendships blossomed, and lasting memories were made. A humorous yet embarrassing moment occurred when she and her friend Joan were leaving the canteen, and Kyle accidentally dropped her noodles in front of everyone.

As she moves forward, Kyle plans to devote herself to her studies, aiming to fulfill her dream of attending De La Salle University (DLSU). Her parting advice to younger students is to work hard for their dreams, reminding them that if someone else can achieve it, they can, too.

Learning Through Laughter and Determination

Tria, Joan Felicity M.

Embracing Lessons and Looking Ahead

Joan's favorite subject is Araling Panlipunan, drawn to its fascinating lessons that encourage her to study more about Philippine history. As she moves on, she knows she'll miss the lively teasing and camaraderie of her classmates, who both stress and comfort her at the same time. Joan dreams of traveling to different places with her family, wanting them to share in every new experience.

Buwan ng Wika remains a highlight for her because it allows students to showcase diverse traditions and performances from across the Philippines. Her advice to younger students is simple yet powerful: never give up, do your best, and find ways to solve even the most demanding tasks.

Villanueva, Jewel Clarize P.

For Jewel, the most memorable moment in grade school was her camping activity, where she stayed overnight, learned discipline and teamwork, and formed friendships with schoolmates from different grade levels. Though she enjoyed being part of the Science Club, she often wishes she had also joined the Math Club, Music Club, and Volleyball Team to explore her other interests—particularly her love for math, music, and staying active.

Some of Jewel's fondest memories involve laughing, studying, and bonding with friends . Though she hasn't settled on a specific career path yet, a medical field appeals to her desire to care for others. Among all school traditions, Siglakas stands out for the joyful way it brings families and friends together —a tradition she will truly miss.

Discovering Confidence Through Adventure

Junior High School Department

Message to the Graduates

Christine Bernadette M. Bapor

Grade 10 Einstein Adviser

To Grade 10 - Einstein,

The first time I met many of you was during online classes, when we couldn't yet see each other face to face. But together, we made it through that challenging learning environment and eventually found ourselves sharing a real classroom once again. Each of you has a distinct personality, unique abilities, and special qualities that define who you are. I am proud and grateful to have had the opportunity to be your adviser during your final year at SFAMSC.

It wasn't always easy to manage a class filled with so many different vibrant personalities, each with their own dreams, talents, and interests. But it was a true privilege—one that I will always treasure.

This year has proven your determination, your passion, and the limitless possibilities within each of you. You didn't just overcome the challenges—you flourished, and in doing so, inspired everyone around you. I am so proud, not only of what you have accomplished, but of the incredible people you are becoming.

As you close this chapter and step forward into the next, remember: every obstacle you face is shaping you into the extraordinary person you are meant to be. Celebrate your achievements and look ahead with excitement to the adventures still waiting for you. It all begins with you—and the best is yet to come!

Congratulations, my Grade 10 - Einstein, Class of 2024–2025!

With love and pride,
Your Loving Adviser,

Ms. Tin

Keep learning, keep dreaming, and never stop believing in your power to make a difference in the world.

CONGRATULATIONS!

Grade 10 – Einstein

"Learn from yesterday, live for today, hope for tomorrow.

The important thing is not to stop questioning."

ALBERT EINSTEIN

Christine Bernadette M. Bapor, LPT
Adviser

Tristan Kurt C. Doroteo

"Shooting for Success, the Determined Dreamer "

Known by his friends as a dedicated athlete and a loyal companion, Tristan has created unforgettable memories during his high school years. His biggest influence has been Tita Maricel, whose guidance helped him navigate challenging times. She imparted wisdom that Tristan would always carry with him, telling him, "Just because you are good at basketball, you should not forget your studies. Not everyone can become a professional athlete. If you cannot be an athlete, you have your studies to fall back on."

Tristan's favorite classes were Ms. Lorely's Filipino and Sir Mario's Araling Panlipunan, which sparked his interest in history and the stories that shaped the world. During lunch breaks, you'd find him with his closest friends—Kyle, Uno, Joven, Miguel, and Deon—bonding over their shared love for basketball and the camaraderie they built as varsity teammates. Their friendship is special because it's rooted in understanding and unity, which resulted from years of competition and teamwork.

When it comes to his dreams, Tristan aspires to become either a professional basketball player or a seaman, following in his father's footsteps on the court. Representing his school at major sporting events like SIGLAKAS, CAMPRISA, the Municipal Meet, and Foundation Day has been a highlight of his high school journey, giving him a chance to make his school and family proud.

2

Jermie Marco E. Estrella

"Friendships, Challenges and Dreams on the Journey Ahead"

For Jermie, high school has been all about his unforgettable memories with his closest friends—Ryan, Matthew, Joven, Miguel, Cedric, and Uno. These friends are more than just classmates; they are his "troops" and his best friends. Every laugh and shared moment with them has turned ordinary days into cherished memories, making high school a time he'll never forget.

Academically, Math proved to be the most challenging subject for Jermie. Still, he found a way through it with the help of his teacher, Ms. Tin. By following her instructions, taking notes, and asking questions when he needed clarification, he overcame the tough problems and improved his understanding. Through dedication and persistence, he realized that even difficult subjects could be managed with proper support and focus.

When face-to-face classes resumed, Jermie was initially shy and nervous about connecting with new classmates, but friends like Ryan and Uno reached out, inviting him to join their group. This welcoming gesture became lasting friendships that made high school feel like home. With his friends by his side, he felt understood, supported, and surrounded by people who truly had his back, creating bonds that he believes will last beyond graduation.

Looking ahead, Jermie's biggest goal is to achieve high honors—a pursuit not only of academic excellence but also a personal dream. Motivated by a promise from his mother to buy him a dream bike, a Colnago C63, if he reaches his goal, Jermie is determined to do his best. His favorite school event, scouting, also holds a special place in his heart. The overnight experience filled with laughter, cheers, and camaraderie feels like a "limited-time event" he'll never get to relive, reminding him of the precious moments that make junior high school so special.

3 James Matthew S. Gonzales

" The Compassionate Caregiver "

Facing challenges head-on, James has demonstrated resilience and determination throughout his high school journey. Mathematics posed the biggest challenge for him. However, by diligently listening to his teachers and studying lessons in advance, he overcame this obstacle and strengthened his academic skills.

He is an athlete by heart and one of the most skilled Volleyball players on the SFAMSC Volleyball Varsity team, so SIGLAKAS stands out as his favorite school event. James enjoyed participating in sports like volleyball and basketball, but he loved creating cheers most. This event allowed him to express his school spirit and engage in teamwork, leaving lasting memories of camaraderie and fun.

James's most unforgettable moment in Junior High happened when his closest friend, Jacey, transferred to another school to pursue a volleyball career. James was happy for her, even proud, but the thought of losing his closest friend cast a shadow over the new school year. This moment made him realize the importance of cherishing friendships while they last and accepting the inevitable changes that come with growth. Nothing is permanent.

After graduation, James plans to pursue further education at a larger institution, with aspirations to attend the University of Santo Tomas (UST) or Far Eastern University (FEU). Passionate about helping others, James is determined to become a United States Registered Nurse (USRN). His ambition to heal and support people drives this career choice. Achieving this goal holds personal significance, as he aims to provide his mother and grandmother with a better life by moving them to the United States.

4

Ryan Matthew O. Guevarra

"A Journey of Inspiration and Determination "

Throughout his junior high years, Ryan's biggest inspiration was Sir Mario, who guided him from Grade 5 to Grade 10. Sir Mario's passion for history and writing ignited Ryan's interest in these subjects, helping him develop the skills and determination to excel academically.

Mathematics and Science were initially challenging due to complex word problems and solutions. However, Ryan overcame these obstacles through determination and focus and now genuinely enjoys learning in these areas.

One of his favorite memories is a field trip with friends to historic places like Barasoain Church and Mt. Samat. The laughter and camaraderie during the trip created unforgettable moments that strengthened their friendships.

Looking ahead, Ryan envisions himself as a successful engineer working on innovative projects that address real-world challenges. He hopes to contribute to sustainable infrastructure and mentor young aspiring engineers, sharing his knowledge and passion to inspire the next generation.

5

Joven A. Lovendino

"Embracing Growth and Friendship"

Joven Lovendino reflects on his high school journey with gratitude and joy. **High School Night** was his most unforgettable moment—a first-time experience that allowed him to make new friends and connect meaningfully with other students. This event was extra special because it was the first prom night after years of not having one due to the pandemic. It was an evening that broadened his social horizons and created lasting memories.

His favorite class was Grade 10 Einstein, marking his final year and one of the most impactful periods at the school. This time helped him develop greater responsibility and discipline, shaping him into the person he is today and preparing him for the future.

Joven's closest friends—Miguel, Uno, and TK—hold a special place in his heart. Their friendship is unique because they consistently support each other academically. Studying together and teaching one another has improved their knowledge and strengthened their bond.

Joven offers heartfelt advice to the younger students: "Take advantage of all that high school has to offer by joining clubs, trying out new things, and making friends. Ask for support when you need it; we're all working through this together. And never forget that it's perfectly acceptable to be who you are and make mistakes along the way!" Summing up his high school experience, he reflects, "My time in high school was filled with much self-discovery that helped create who I am today, as well as late-night study sessions and special times spent with friends."

6

Juan Miguel F. Marcos

" The Positive Visionary "

Miguel carries valuable lessons from Junior high school that he'll cherish forever. He has learned always to stay positive and understand that irritation or anger won't solve problems. Embracing his inner child, he believes in having fun to alleviate burdens and maintains discipline in everything he does. Basketball has been the extracurricular activity that meant the most to Juan Miguel. It served as an outlet to channel his emotions—whether processing anger, finding inspiration, or escaping reality. The sport is significant in his heart, providing balance and joy throughout high school.
His closest friends are like family —Tristan, Kyle, Joven, Miguel Valerozo, Jermie, Lyka, and Jacey— Together, they confide in one another, offer support, and push each other to new heights. They've shared highs and lows, always ready to cheer each other up.
Their bond feels like a family gathering on a Sunday, filled with laughter and warmth.

Looking ahead, Juan Miguel envisions himself enjoying the fruits of his labor years from now— perhaps on a yacht, free from financial worries. He aspires to help the less fortunate and provide his parents with the good life they wish for him, freeing them from the need to work again.

Summing up his high school experience, he reflects: "My high school journey was a blend of joy and nostalgia, filled with challenges and triumphs that created lasting memories I'll always cherish." His favorite memories include basketball and tournaments, band practices, field trips, post-exam meals, birthday celebrations, and those lively classroom break times. Above all, he treasures the moments when he and his friends would laugh together during lunch until their lungs hurt—a daily bonding that he knows will be the hardest to let go of once he graduates. The thought of leaving these everyday joys behind adds a bittersweet note to his farewell, as he realizes that while new adventures await, nothing can replace the irreplaceable times shared with his closest friends. Don't be sad because it ended; be happy it happened."

7

Matthew M. Moratalla

"Engineering Dreams and Team Spirit "

Matthew Moratalla has learned that high school is not just a training ground for academics but also a place for socializing and developing discipline. He believes connecting with knowledgeable and skilled people can guide us in the right direction. A friendly and sociable person, Matthew treats everyone with kindness and companionship—skills he knows will be invaluable in his future endeavors. He emphasizes respecting one another, viewing classmates like siblings and teachers as second parents.

Being selected to join the SFAMSC volleyball team was a dream come true for Matthew. Representing his school and competing against other students allowed him to showcase his skills and prove that he's more than just a regular student—he's a student-athlete. The achievement he's most proud of is being named the volleyball team captain. This honor made him realize his leadership potential and that there's more to him than he thought. Additionally, receiving the "Malasakit Award" for outstanding service, responsibility, and helpfulness is a testament to his dedication.

To the younger students, Matthew advises meeting deadlines to avoid the pitfalls of procrastination. He suggests building good relationships with teachers to ensure they are approachable when help is needed. Lastly, he encourages participation in school events, student council activities, clubs, or sports teams to discover true passions, aiding in making informed choices in senior high school.

Looking ahead, Matthew's top goal is to graduate with a degree in mechanical engineering and gain work experience at automotive companies. In the next 8-10 years, he plans to start his own company or business. He aspires to live a financially stable life without worrying about money. He is determined to become an engineer who helps shape and evolve the world through machines and electronics.

As Matthew reflects on his high school years, a bittersweet nostalgia envelops him. He knows he'll deeply miss those moments when he and his friends sat close together, sharing lessons and teaching each other—their heads bent over textbooks, laughter bubbling up amid serious discussions. The talks and gossip exchanged during recess or lunch have become cherished memories, little snapshots of joy and connection. Despite the ups and downs, the people around him painted his high school life with vivid and colorful strokes. The thought of parting ways fills him with a wistful longing, but he holds onto the warmth of those friendships as he steps into the next chapter of his life."

8

Cedric Carl B. Poquiz

"Gaming Enthusiast and Student Leader "

As the Grade 10 representative of the student council, Cedric has balanced leadership responsibilities with his passion for fun and camaraderie. High school has been a journey filled with unforgettable moments for him. One of his most memorable experiences was when he almost slipped on the stairs during lunch—a close call that turned into a lighthearted story among friends. Another favorite memory is when someone threw sticky Mentos all over the whole class, an unexpected event that had everyone laughing together.

Cedric's favorite school event is Foundation Day, where he especially enjoys the video game booths. He is considered one of the best players in DnF Duel, a fun anime fighting game featured during the event. Competing and sharing his gaming skills with friends has made Foundation Day particularly special for him.

Looking ahead, Cedric sees himself as a computer engineer in ten years. If he could go back, he would join the AP Club to further enrich his high school experience. He sums up his time in high school in one sentence: "Junior High School is the most memorable for someone who enjoys being with friends." For Cedric, the joy of high school has always been about the friendships, shared laughter, and fun times that made these years truly special.

9

Ethan Hans Amber L. Quizana

" Building Bonds and Architecting Dreams "

Ethan Hans Amber L. Quizana treasures the connections he's made in high school. His most memorable moments are the friendships and bonds created by classmates and teachers. These relationships have shaped his journey, providing support, fun, and motivation to keep going.

An achievement that stands out for Ethan is earning honors in Grade 9 for the first time since elementary school. This milestone, achieved after years of academic struggle, was a proud moment and a testament to his perseverance. Ethan hopes to carry this success into senior high school, college, and his future career.

When he thinks about what he'll miss most, Ethan reflects on the friends who've helped him step out of his comfort zone and embrace who he truly is. Whether sharing laughs with Franco, Catherine, Cedric, Ryan, Alexis, and George, or creating unforgettable memories with Margo, these friendships have defined his high school experience. Ethan knows that without them, he wouldn't be the person he is today.

Looking forward, Ethan dreams of becoming an architect, inspired by his fascination with building designs, which has grown over time. Although his childhood dream was to be a professional wrestler, his passion has shifted to architecture, where he hopes to leave his own mark by designing houses, buildings, and structures that shape communities.

10 Yesuah Adriel E. Romero

" Designing Dreams and Building Memories "

Yesuah Adriel E. Romero is a vibrant and sociable individual who reflects on his high school years, filled with joy and unforgettable experiences. His most memorable moment was the **High School Night**, where his outgoing nature shone as he and his classmates danced the night away, enjoyed great food, and shared fun moments with their teachers. This event highlighted his love for bringing people together and creating an atmosphere of camaraderie. It was an evening that strengthened bonds and left lasting memories he'll cherish forever.

A team player at heart, Yesuah's proudest achievement was participating in a basketball competition with his classmates in 8th grade. His dedication and enthusiasm contributed to the team's success in securing second place. He values hard work and perseverance, always trying his best in every game. The practices after classes at the Area 6 basketball court are among his favorite memories—times filled with laughter, teamwork, and a shared passion for the sport. These experiences reflect his commitment to collaboration and ability to inspire others through his positive attitude. Friendship plays a central role in Yesuah's life. He treasures the countless hours spent playing, talking, and supporting one another with his friends. His approachable and friendly personality makes it easy for others to connect with him.

Inspired by his Tito, Yesuah dreams of becoming an **architect**. His creative spirit and a keen eye for design fuel his aspiration to shape the future through buildings and houses. He admires the blend of art and functionality in architecture and is determined to follow in his uncle's footsteps. His ambition reflects his forward-thinking mindset and desire to leave a lasting impact on the world around him.

As he moves forward, Yesuah carries with him the lessons learned and the cherished memories made. His sociable nature, dedication to teamwork, and passion for creativity position him well for the future he envisions. With determination and a clear vision, he is ready to design the next chapter of his life, building structures and meaningful connections.

11 Marcus Santino L. Sungcuan

" From Shy Beginnings to Confident Achiever "

Reflecting on his high school journey, Marcus Santino L. Sungcuan marvels at his tremendous transformation since freshman year. He began as a shy, lonely new kid, but over time, he blossomed into an excellent honor student known throughout the school. Building friendships and gaining recognition wasn't easy, but the effort was worth it. Now, he's a familiar face with many friends, no longer a nobody but somebody who feels at home among his peers.

One of Marcus's proudest achievements is becoming an honor student—a milestone he hadn't reached at his previous school. This accomplishment fills him with happiness and represents a significant leap forward. He's super proud of how far he's come, exceeding his expectations and setting a high bar for his future endeavors.

As he prepares to move on, Marcus will miss the fun, engaging, and memorable moments shared with the school community over the years. These wonderful experiences have left an indelible mark on his heart, and he will carry these cherished memories with him for the rest of his life.

Marcus aims to build a successful career and secure a promising future for himself and his loved ones. Inspired by his parents—who studied diligently through their teenage years to achieve the success they enjoy today—he is determined to follow in their footsteps. In ten years, he envisions himself as a prosperous, fulfilled man with a comfortable home, a car, and a loving family that includes a beautiful wife and three children to carry on the family legacy. Marcus dreams of one day being able to look back on his life with pride, grateful for all he's achieved and blessed by the beauty of the world that our heavenly Father has created.

His advice to incoming freshmen is heartfelt: "Just be yourself. Be nice and trustworthy, and show people you welcome them to be your friend. That way, your freshman days will soon be over." His journey from a shy newcomer to a confident, recognized student is a testament to the power of authenticity, kindness, and perseverance.

12

Miguel T. Valerozo

" Coding Dreams and Lifelong Lessons "

Miguel looks back on his high school journey with gratitude for the teachers who have influenced him the most. They have given him an invaluable education, inspiring him to study hard and achieve good grades each quarter. His teachers are friendly, approachable, and fun to talk to, and they have been pivotal in shaping his academic dedication.

Science stands out as the most demanding subject Miguel had to tackle. With its complex computations and diverse topics like Chemistry, it proved more difficult than even Math. He overcame these challenges by understanding the basics of each lesson taught by his Science teachers and practicing computations on his own. Miguel believes that any complex subject can be mastered with dedication and willingness to practice.

Miguel deeply cherishes his friendships at SFAMSC, crediting the school's strong, close-knit community culture for fostering these meaningful connections. He is eager to stay connected with his high school friends even after graduation. He plans to check in on them regularly, asking how they're doing in their senior high schools. He envisions organizing reunions at places like the mall, where they can bond and create new memories.

Miguel is considering a career path in either web development or game development. His passion for programming stems from a lifelong fascination with coding and a love for video games. Ever since he was a kid, he has been amazed by how games are made and has dreamed of creating his own. He hopes to graduate from college with a major in Computer Science, setting the stage to begin programming games for fun and perhaps even professionally.

Among the many school events he enjoys, Siglakas is his favorite. He loves the competitive spirit of the event, where clans compete in various activities, much like the Olympics. The excitement of practicing with his team and striving for first place makes Siglakas an unforgettable experience.

As Miguel prepares to embark on his next journey, he carries the lessons learned, the friendships forged, and the dreams ignited during high school. With determination and passion fueling his path, he is ready to turn his coding dreams into reality.

13

Franco Lorenzo A. Valle

" From Virtual Worlds to Real Connections "

Since his freshman year, Franco has undergone much personal growth. Emerging from the pandemic, he transitioned from feeling awkward around others to becoming more comfortable interacting with people beyond his close friends. While he enjoyed the pandemic for the extra time it gave him to play games, he realized it made real-life interactions challenging once it ended. This self-awareness and willingness to adapt highlight his resilience and desire for personal development.

Academically, Franco is proud of earning honors in grade 9—a milestone he hadn't achieved since grade school. The return to face-to-face learning motivated him to invest more time in his studies, especially as he noticed that some subjects were close to slipping. His dedication to improving his academic performance demonstrates his commitment to excellence and his ability to recognize when change is needed.

Franco has a keen interest in Computer Science and Chemistry, finding these subjects fascinating and enjoyable despite their challenges. His extensive time spent on computers and his passion for science reflect a curious and analytical mind. He is drawn to fields that stimulate his intellect and offer opportunities for exploration and problem-solving.

High School Night is his favorite school event, especially the practices where he and his classmates would have fun and share laughs in Grade 9. It was more than just a dance; it was a gathering that brought everyone together with food and enjoyable antics.

Franco's closest friends—Catherine, Sophia, Lyric, and Cedric—have been by his side for over six years (apart from Lyric). Their unwavering bond, mutual support, and ability to overcome hardship together have been the cornerstone of his high school experience. He profoundly values these friendships, knowing that they can persevere through any challenge with understanding and patience.

Lyric Jasmine E. Belmonte

14

"Inspiring Creations and Lifelong Lessons"

During junior high, Lyric transformed from a shy student afraid of judgment into a confident young woman. The school's supportive environment was pivotal in her journey, helping her overcome her fears. She realized that taking action—like asking questions and doing things independently—was essential for personal growth. This understanding was crucial in building her confidence and teaching her to rely on herself. Now, Lyric encourages younger students to step outside their comfort zones, explore new passions, trust themselves, and embrace the journey of self-discovery with patience and courage.

Lyric feels profoundly the significant impact her friendships at SFAMSC have had on her. She cherishes the bonds formed during her time there and is determined to maintain these connections. Lyric hopes to keep meeting her friends and classmates through online chats and occasional gatherings. The cherished memories from events like the field trip and Siglakas highlight the value of shared experiences and teamwork, which have shaped her high school journey.

Science is Lyric's favorite subject, sparking a deep interest in how things function. This field inspires curiosity about interconnections and how everything fits into larger systems, showcasing an inquisitive and analytical nature. Lyric's enthusiasm for comprehending the world strengthens her ambitions in creative careers.

Looking to the future, Lyric envisions creating something that inspires others, whether it be a cartoon, a book, a comic, or voice acting. The aim is to positively impact others, similar to how artists and writers have influenced Lyric's life. This aspiration highlights a commitment to spreading creativity and passion.

Sophia A. Estanislao

15

" The Quiet Dreamer with a Creative Spark "

Junior high was a time of growth and self-discovery for Sophia Estanislao, a student whose individuality set her apart in many ways. Throughout her journey, she learned that being herself sometimes led others to underestimate her or view her as less capable. Despite these challenges, Sophia embraced her uniqueness and found strength in proving her worth beyond first impressions. Known for her artistic talent, she showed that her creativity and potential reached far beyond the confines of what people assumed. For Sophia, junior high was a stepping stone toward a brighter future, filled with self-awareness and resilience.

Sophia discovered a newfound appreciation for learning in her AP class, a subject she initially disliked but grew to enjoy as it delved into contemporary issues. Discussing present-day topics sparked her curiosity, making it her favorite class this year. Outside of academics, her favorite memory was prom night—a magical evening where she felt truly special. Wearing a beautiful pink ball gown, she enjoyed the event for what it was, embracing the fun and excitement of the moment without any regrets.

What Sophia will miss most about junior high is the sense of community. She treasures her closest friends—Franco, Catherine, Cedric, Lyric, and Camilla—each of whom holds a unique place in her life, from childhood connections to shared adventures. She'll also miss the teachers who guided her and the underclassmen who looked up to her. As she prepares for the next chapter, uncertain of whether her future lies in marine biology or veterinary work, Sophia carries with her the lessons, friendships, and memories that shaped her junior high experience.

Eugene Alexis T. Frialde

16

"Memories, Milestones and Meaningful Friendships"

Alexis fondly looks back on junior high, with High School Night as her most memorable school moment. For her, it was more than just a dance; it was a milestone symbolizing the end of an era—the conclusion of the pandemic. After years of remote learning, meeting friends only online, and facing restrictions, High School Night marked the return to normalcy and the opportunity to bond face-to-face with friends and classmates before graduation. It created lasting memories that held a special place in her heart.

Academically, Science was Alexis's most challenging subject, particularly concepts like motion and forces from grades 7 to 8. Determined to overcome these difficulties, she adopted a regular review strategy and focused intently on the confusing parts. Studying with friends also played a crucial role in clarifying complex topics. Alexis conquered her struggles through persistence and practice, turning a challenge into an accomplishment.

Central to Alexis's high school experience are her closest friends, Andrei and Pio. Their friendship is built on deep trust and understanding, and they support each other through challenges and celebrate successes. Despite occasional disagreements, they always find a way to make their friendship work—thanks to Pio's ability to settle disputes and Andrei's talent for lightening the mood. The countless memories filled with laughter and support have strengthened their bond, proving that true friendship can endure any challenge.

Looking ahead, Alexis plans to study even harder in senior high, focusing on her academics to improve her chances of getting into her dream university. She aspires to earn a degree to help her achieve her career goals. Summing up her high school experience, Alexis reflects: "My high school experience has been a journey of growth, where I've made friends that stayed with me through everything and created many unforgettable memories, all while facing challenges that helped me become who I am today."

Lyka Joy T. Gonzales

17

" Finding Friendship, Confidence and a Love for Learning "

For Lyka Joy Gonzales, the most memorable part of high school was finding friends who truly accept and understand her. Growing up shy, she felt most comfortable speaking with her closest friends, who became her biggest source of support. Friends like Jermie, Elisha, James, Georgina, Maryella, Jacey, Uno, and Alexis make her feel at ease and happy, letting her enjoy their company from the background while feeling entirely accepted and appreciated.

Academically, Lyka's favorite subjects were Math and Science, though they didn't start that way. Initially challenging and even a bit boring, her persistence in understanding Math transformed it into a fascinating subject. Science, especially topics like experiments and anthropology, also grew to capture her interest. She appreciates the challenge these subjects bring, as they taught her to persevere and find excitement in learning something new.

High school also helped her step out of her comfort zone in unexpected ways. Initially eager to move on to a bigger school, she realized as a Grade 10 student that leaving SFAMSC—where she grew up—would be difficult. Yet, she feels ready to take that leap, knowing it's essential for her future and her family. One of her proudest achievements was joining the school's dance troupe. Overcoming her shyness, she finally pursued her childhood dream of dancing on stage, an experience she'll always cherish.

As she prepares for her next steps, Lyka reflects on her biggest influences—Sir Mel and Miss Tin, whose dedication to teaching inspired her deeply. Despite the complexities of the subjects they taught, their intelligence and commitment left a lasting impression. High school has been a journey of growth and self-discovery, where Lyka found friends, built confidence, and learned the value of perseverance in academics and beyond.

Therese Margo L. Matienzo

18

" Leading with Kindness, Talent and a Heart for Healing "

As the President of the Student Council, Margo has been a guiding force throughout junior high, leading with grace and humility. She is a natural leader who does not hesitate to share her talents with her classmates. Not only is she a great dancer, but she is also a gifted choreographer. In school activities, you can see her creating choreography for her group, teaching them the moves, and bringing out the best in everyone.

Margo's journey has been profound personal growth, with her relationship with Christ taking center stage. Through difficult situations, she learned the importance of kindness and courage, recognizing that choosing kindness in a chaotic world is a brave and loving act— a guiding principle she carries forward.

Her proudest achievement is earning the highest honors, a testament to her dedication and resilience. Achieving academic excellence proved that she could accomplish anything she set her mind to.
This accomplishment has given her the confidence to embrace future challenges with strength and courage, reminding her that hard work and faith can lead to success.

Looking ahead, Margo dreams of working in the medical field, hoping to be present in life's most pivotal moments. She envisions herself as a light and a source of hope for those in dark times, bringing comfort and care to people who need it most. This calling aligns with her deep faith and desire to help others, making her excited to serve a higher purpose in her future career.

Maryella Grace Z. Pusing

19

" Reunions, Resilience and the Road Ahead "

For Maryella Pusing, her most memorable high school moment was the return to face-to-face classes after the lockdown. The blend of excitement and nerves made the experience unforgettable, and she was thrilled to be back in school, surrounded by friends and out of the isolation of online learning. Finally stepping away from her laptop and into a real classroom, Maryella felt ready to dive into new lessons and make lasting memories with her classmates.

One of her proudest achievements was winning the UP LIKAS essay writing competition. Competing against students from prestigious schools, including UP Integrated School, was intimidating, and she hadn't expected to win. This accomplishment bolstered her self-confidence and showed her that with hard work and the belief of mentors like Sir Mario, she could achieve more than she ever imagined.

Maryella's closest friends—Georgina, James, Alexis, Lyka, and Jacey—have been her constant support. Together, they've shared countless laughs, heart-to-heart conversations, and unwavering encouragement. Their unique bond, built on loyalty and understanding, means the world to her; they've always had each other's backs, creating a friendship she knows will last beyond high school.

Looking to the future, Maryella hopes to either continue her studies to become a doctor or work as a registered MedTech abroad. Her goal is to earn a good salary so she can give back to her parents in gratitude for the sacrifices they made to provide her with a quality education and a good life. High school has been filled with friendships, accomplishments, and growth, and Maryella steps forward with a heart full of gratitude and determination for the road ahead.

Maria Catherine D. Tabliago

20

" Resilient, Tenacious and Ready to Capture Her Dreams "

Starting high school during the pandemic tested Catherine Tabliago's resilience like never before. The shift to online learning and isolation led to a difficult period; yet, Catherine's tenacity shone through. Though once a bubbly and outgoing child, she struggled with feelings of separation from friends and the challenges of online classes due to the pandemic. Despite these obstacles, Catherine remained determined, working from Grade 8 to Grade 10 to shape a stronger, more resilient version of herself. She faced her struggles head-on, refusing to let setbacks define her, and emerged with a newfound inner strength.

One of Catherine's proudest achievements is becoming the unofficial school photographer, trusted to capture memorable events and document the school's story. This role is a testament to her persistence and creativity, as she's found a way to channel her love for visual storytelling into something meaningful. Though she initially dabbled in art, photography became a purposeful outlet, allowing her to turn her passion into something contributing to the SFAMSC community.

Catherine's closest friends—Cedric, Lyric, Sophia, and Franco—have been invaluable on this journey, each bringing unique perspectives and a shared loyalty that has strengthened her spirit. Her diverse friendships and the enduring bond with her best friend Nielle, who moved to Australia, have given her the confidence and grounding needed to navigate high school's ups and downs. These friendships, built on unwavering support, have been a core part of her high school resilience.

Looking ahead, Catherine dreams of studying abroad in Japan to pursue a career in game development or content creation. Her unwavering drive to explore multiple paths reflects her tenacity and willingness to push through any challenges to achieve her dreams. Her advice to incoming freshmen? Embrace what feels right, face challenges boldly, and never stop pursuing your passions. Catherine's journey is a testament to the power of resilience and the strength of facing life's challenges with courage and tenacity.

Chloe Janelle S. Torre

21

" From Quiet Beginnings to a Confident Leader "

Since freshman year, Chloe has become more confident and open-minded. She has learned to connect with others, become more understanding, and focus on her studies. High school has been a journey of growth for Chloe, building her maturity and preparing her for the future with a new sense of purpose and drive.

For Chloe, volleyball has been the extracurricular activity that means the most. She learned the value of teamwork, trust, and communication on the court. Volleyball taught her how important it is to work together, trust her teammates, and communicate to succeed. This sport has also helped her build friendships, become more social, and gain confidence, all of which have contributed to her growth.

Chloe's closest friend, Margo, has been like a sister to her, forming an honest and understanding bond. Their friendship is special because they truly know each other inside and out, supporting one another through highs and lows. For Chloe, Margo is the one person who knows her best outside of her family, and this deep connection has been a cornerstone of her high school experience.

In ten years, Chloe envisions herself as a happy, independent woman who knows her goals and works hard to achieve them. She foresees herself facing new challenges but is determined to tackle each one. Her advice to incoming freshmen? Don't be lazy with assignments, stay punctual, and set clear goals from the start, as freshman year is the foundation for everything that follows.

Georgina Michaela M. Umali

22

" Friendship, Inspiration and a Vision For the Future "

For Georgina Michaela M. Umali, the most memorable part of high school was building friendships through school events like Siglakas, joining clubs, and celebrating at High School Night. These activities strengthened her connections and made her high school years unforgettable. Each event brought her classmates closer, creating memories she'll cherish forever.

Looking back, if she could join an activity she missed, it would be the Math Club. With a genuine love for math, Georgina admired the challenge of solving complex problems and memorizing formulas. She feels that joining the Math Club would have enriched her understanding of the subject she has always appreciated and allowed her to dive even deeper into a subject that fascinates her.

Her closest friends—Ella, James, Lyka, Jacey, and Alexis—hold a special place in her heart. They've built a friendship grounded in love, patience, and understanding. They support each other through any problem, and it's this unwavering loyalty that has made their friendship so strong. These friends have become more like family for Georgina, sharing challenges and joys throughout high school.

Georgina's dream is to pursue a career in architecture. Inspired by the structures and designs she encounters daily, she sees architecture as combining her artistic vision with practical purpose. She advises incoming freshmen to stay curious and embrace every learning opportunity. Whether in the classroom or through extracurriculars, she believes that high school is the perfect time to explore interests and make lasting memories. She will miss the supportive community of SFAMSC, especially the teachers and friends who have become her second family, helping her grow and preparing her for the future.

The best way to find yourself is to lose yourself in the service of others." – MAHATMA GHANDI

To my fellow Franciscans in the Student Council of school year 2024-2025. This is not goodbye, but until we see each other again. I feel so blessed to have the opportunity to work with all of you. As this is my first and last year of being a part of the Student Council, the times we have shared and the sacrifices we have made have become so much more memorable for me. I remember putting a quote by Mahatma Gandhi in our flyer during the room-to-room campaign saying, "The best way to find yourself is to lose yourself in the service of others." Being the president of the student council is a big step for me. It has helped me find and understand myself and grow as a student, leader, and person. I have realized and learned so many things; part of it was how talented and gifted all of you are.

Without the help of all of you, we would not have made our programs possible, such as our game tournaments, which have made our fellow Franciscans smile and have small fun breaks in the middle of their schoolwork this year. I express my gratitude to all of you who have shared your creative insights, shown appreciation for one another's strengths, and helped us achieve our goals for this school year. Every sacrifice is worth the progress we have made. Also, thank you for being one of the reasons I smiled this schoolyear, lalong lalo na nung campaign period natin. Feel na feel niyo talaga at G na G kayo sa pag-introduce niyo sa sarili. I say, good job! Because that is an ideal and helpful step in overcoming your fear of public speaking. Continue to use your strengths, do what you love, and share your gift with others. It makes my heart happy to be a part of your journey and for you to be a part of mine. I hope this is not the last time you will proudly use your unique talents and skills to advocate for the student body. I truly see the potential in all of you to be great leaders. Farewell doesn't mean the end; it's a new beginning. I wish you all the best on the road ahead!

I am grateful to the student council's adviser, Ma'am Rose Ann Carizo, for your guidance, support, and efforts. The student council wouldn't have progressed without your cooperation and unwavering support in our projects. Thank you, Sir Mario Follero, our beloved principal, for your guidance and trust in the student council's projects. Thank you, Ma'am Maricel Doroteo, for correcting our mistakes and guiding us to be better student council leaders. To my number one supporter and my right-hand partner, Iannah Marie Ignacio, the Vice President of the student council, thank you for your outstanding efforts and sacrifices. To our talented senators, Zachary Drake Tapel and Aaliah Jef Faciol, thank you for your cooperation, especially your artwork and efforts in our poster-making. To our secretary, Princess Mae Tirana, thank you for always taking note of our projects and assigned helpers for your time and efforts. To our Treasurer, Robert Soliven, thank you for your honesty, trustworthiness, and integrity in safekeeping the student council funds.

Most importantly, to our Auditor, Chloe Janelle Torre, my biggest supporter, and best friend, thank you for keeping track of the student council's funds and being one of my main sources of strength to continue. To our Chief Peace Officer, Maryella Grace Pusing, thank you for your efforts and cooperation in our projects. To the rest of our senators and representatives, a big thank you to all of you for your cooperation. You guys took on a big responsibility, which is already a challenging step and an incredible accomplishment. Lastly, to all of the Franciscans who voted for me, thank you for trusting me to be the student council president. You have given me the honor of serving the student body, for which I am very grateful. Thank you very much, teachers, Franciscans, and student council members!

Yours Truly,

Therese Margo L. Matienzo
Student Council President
SY 2024-2025

Saint Francis Prayer

Make me a channel of your peace.
Where there is hatred, let me bring your love.
Where there is injury, your pardon, Lord,
And where there's doubt, true faith in you.

Make me a channel of your peace.
Where there's despair in life,
let me bring hope.
Where there is darkness only light.,
And where there's sadness ever joy.

Oh master, grant that i may never seek
So much to be consoled as to console.
To be understood as to understand,
To be loved as to love with all my soul

Make me a channel of your peace.
It is in pardoning that we are pardoned;
In giving of ourselves that we receive,

Congratulations on all your hard work and achievements. Always remember the lessons learned here will carry you through life. You've all shown incredible strength and resilience. Keep pushing forward and never stop believing in yourselves.

Way to go Class of 2025!

Congratulations !

MAT OLAVIDES
MUSIC PRODUCTION
EVENTS, PARTIES & PERFORMANCE DJ SERVICES
MUSIC MIX & MASTER
CAMPAIGN / JINGLE PRODUCTION
Mat Olavides
Senior Producer | Music Engineer
Mat Olavides is currently the in-house senior music producer and of FlipMusic Records. His breakout moment as a music producer can be attributed to his euphonious creations for Careless Music Manila, led by the talented James Reid, and for BINI, with the back-to-back hits "Pantropiko" and "Salamin, Salamin", both of which topped the Billboard Philippines charts. He has also worked with, artists such as Nadine Lustre, Sarah Geronimo, and many more. Mat has earned multiple nominations from prestigious music awards, further cementing his position in the industry. Recently, the track he co-produced, "Pantropiko" was honored with back to back Song of the Year at the MYX Music Awards 2024, PPOP Awards, Wish 107, a testament to his growing influence and exceptional talent. His works continue to gain recognition both locally and internationally, solidifying his reputation as an artist and producer on the rise.
Not only does he make the hottest tracks, he performs them as well. Mat's name can be seen and heard around Manila's hottest bars, clubs, weddings and, private events. A DJ for more than 10 years, Mat's infectious vibe and flawless execution make his DJ style easy to spot. A story within turntables, Mat takes you on a musical adventure that is sure to make each night more memorable than the last.

Congratulations ! Therese Margo L. Matienzo

From Mommy and Daddy

Congratulations to the graduates of 2024-2025 on your well-deserved success!
New adventures await. As you make your way in the world,
remember to always be kind and true to yourself.
Embrace the difficulties for they will make you stronger.
Never stop trying and always give your best, and you'll go places.
May all your dreams come true!

From Matienzo Family

Congratulations, Zuriel!

We are so proud of
your achievement.
Watching you grow, learn,
and reach this milestone fills our
hearts with joy.
This is just the beginning—
keep reaching for your dreams.

Tambulian Family

Congratulations Alexi Reign!
We are proud of you.
Keep shining and chasing your
dreams!

Greetings from MJ Beverage
Trading

As we celebrate this milestone,
the first of many steps as you go
along your journey,
remember to keep your dreams big,
for dreams are the start of every
great adventure.
The future will always be filled
with so much possibilities.
Keep the love for your friends and family,
continue to do things from your heart,
sing your words, dance your moves
and keep the brave,
kind and sweet happy kid that you are.
We are always proud and grateful
to the person you are now and will become.
Our love for you is forever.

Education with Love & Concern

St. Francis of Assisi Montessori School of Cainta *is a leading progressive school in Cainta, Rizal, that teaches preschool, grade school, and Junior High. Our curriculum is designed and proven to help our students learn better, achieve more, and have higher morale because we are a small learning community. This allows us to give our students more attention, more opportunities, and more love. We combine modern teaching methods with the wisdom and values of Jesus Christ and St. Francis of Assisi to produce successful students who make the world a better place. We warmly invite you to join us on our mission to create a brighter future, one generation at a time!*
